

GUEST POLICY

The basis of our visitor policy is the health and safety of our patients and visitors.

- Visitor hours are from 10:00 to 22:00 every day.
- In cases that may be inconvenient for the patient, the visit is subject to the permission of the physician.
- In order to protect the health of your children, children under the age of 12 should not be brought as visitors.
- Since the patient will plan a specific diet, food and drink should not be brought from outside.
- 2 visitors can be with the patient at the same time. Having a large number of visitors is inconvenient for the health of the patient and visitors.
- Flowers are not accepted in patient rooms. The flowers you send to our patients are accepted by the Information Unit in the lobby and a 'flower card' is issued. Flower cards with the name and surname of the flower sender are sent to the patient rooms to ensure that the patient has information. The patient or patient's relative can receive flowers from the Information Unit with a flower card.
- Smoking is strictly prohibited in the entire hospital building.

*Related units, clinics, departments and departments may have their own visiting rules; It should be noted that these rules, which may differ within our general visitor policy, must be followed.
